Receiving the cold boxes from Port Klang

Cold Box 1
L10.68 m x W4.01 m x H2.81 m
22.5 ton

Cold Box 2
L30.84 m x W3.32 m x H3.65 m
50.4 ton

Transporting from Port Klang to Gopeng, Perak

Lifting and erection of cold box 1 to place it on foundation

Lifting and erection of cold box 2 to place it on foundation

Track 4A is a new power plant located in Pasir Gudang, Johor that's expected to achieve scheduled commercial operation on 1st July 2020. We have completed ten shipments of numerous different structures that have varying dimensions and weights. Many more larger and heavier cargoes are expected to arrive in the coming months. We expect to complete our scope by the third quarter of 2019.

We transported three units of locomotives along with their chargers from Singapore to Gombak for rehabilitation purposes. A temporary import permit was obtained as we will deliver them back to Singapore once all repair works are done.

100-tonne cargoes from Germany in Megalift Yard

42 pieces of cargoes imported from Germany are currently stored in our Port Klang yard for fabrication and installation works. These are parts of a sewage plant that segregates liquid and solid.

We handled a large shipment of 132 kV gas insulated substation (GIS) for the ongoing railway project in Klang Valley. Series of deliveries, using low loaders and general trailers, were done from Port Klang to the site in Kepong, Kuala Lumpur. The shipment includes some dangerous cargoes and several units of transformers.

For the same railway line, we also delivered the tunnel boring machines (TBM) to the underground stations. Parts of the TBM front shield, manlock and gantries, all of which are different in shapes, dimensions and weights.

MULTI-TRANS GROUP OF COMPANIES'
38th
ANNIVERSARY DINNER

We celebrated our group's 38th anniversary this year and it's definitely a milestone we that we take pride in. It was an enjoyable night with more than 350 participants. During the dinner we also gave out long service awards to 77 of our staffs who have been with us for 10, 20 and 30 years.

Congratulations to our Multi-Trans and Megalift bowlers for emerging as Champions and First Runners Up in the recent Selangor Freight Forwarders Logistics Association, SFFLA's Bowling Championship in Kuala Lumpur!

We completed an air freight training for Multi-Trans' sales team in our office in MAS Kargo, KLIA and a tour to the customs' office as well as airline terminal.

More than 30 of us attended Multi-Trans and Megalift's yearly First Aid & CPR training to equip themselves with the first aid skills during the occurrence of any emergencies. It is a skill and knowledge highly useful in both our job and in our personal lives.

We would like to take this opportunity to wish you

Merry
Christmas & Happy New Year
from all of us in Megalift! *2019*
